

TEAMFORWARD

FOR TEAMS THAT THRIVE

Teams that know and understand each other flourish; those that don't, languish. With TeamForward, we help each person understand themselves better and learn how they can work optimally with other team members. As an approved Myers-Briggs Type Indicator® (MBTI®) provider, we leverage the power of the world's most popular development assessment to help people and teams gain insight into themselves, collaborate optimally with others, and thrive.

PROGRAM BENEFITS

- Improved performance and goal achievement
- Increased understanding and inclusion
- Fewer interpersonal conflicts
- Reduced stress and greater resilience

When surveyed¹, people express significant benefits:

85% – Capitalize on their strengths more
61% – Make better decisions
64% – Are more confident leaders
67% – Feel more confident in their contribution at work

THE PROCESS

Goal Setting / Needs Assessment – We work together to determine your goals to ensure our output aligns with what matters most to you and your team.

Personal Growth – Everyone takes the MBTI® assessment: quick, easy, online. We validate/review each person's Type via a one-to-one and share ideas for how to put this new self-awareness to work.

Team Growth – We deliver results to the entire team, with specific ideas for using the team's personality – the unique combination of individual types – to the greatest effect.

The Big Goal – We tie the results to specific tactics for achieving the goals outlined at the start.

THE CHANGE LABORATORY

We're a boutique change consultancy that offers professional consulting and contract services for organizations of all sizes, providing development solutions that make teams #SundayScaries-free and organizations great places to work.
